### The Bible was Stolen.

On Sunday when services were being held in Mt. Olivet church, out on Caldwell's run, it was found that the large church Bible was missing, and investigation proved that some thief had entered the building and stolen it.

### A Grand Concert.

A few more seats are left for the New York Symphony Club, which appears at the Young Men's Christian Association hall to-night. The club is well known to all lovers of fine music. The people of Wheeling will have an opportunity to hear some fine music. Seats can be secured at the Y. M. C. A. office.

### An Iceberg Accident.

Yesterday afternoon Mr. J. W. Van Keuren, father of Charley Van Keuren, was on the roof of the kitchen when an immense icicle, weighing at least a hundred pounds, fell and struck him on the head, inflicting a long ugly gash and nearly throwing him from the roof to the ground.

### Postmaster Gets Fourteen Months.

Charles G. Stephens, formerly postmaster at Empire, Wayne county, and who has just been convicted of robbing the postoffice there, was brought up to the Moundsville penitentiary yesterday by Deputy United States Marshal G. W. Robinson. He got fourteen months, and confesses that he stole \$110.

### Road Improvement in Marshall.

The county court of Marshall county has let the contract for the completion of the work of macadamizing the Waynesburg road to the top of the hill east of Moundsville. The agreement made some two years ago was that the citizens were to do a part of the work and when that part was completed the county was to finish it. The stone will be purchased of the Mining and Manufacturing company, and Wesley C. Riggs was awarded the contract for putting the stone on the road.

### A Novelty in Paper Weights.

The Postoria Glass Company, of Moundsville, is always springing some attractive novelty in glass formation which adds to its reputation as one of the most enterprising concerns in the country. The latest conceit it has put upon the market is a paper weight containing a striking intaglio of the martyr President, Abraham Lincoln. The lines of the face are very fine, and the resemblance to his portraits is unquestionably good. The designer of the novelties turned out by this firm is certainly an artist of rare talent.

### At Clerk Hook's Office.

F. D. Clifton, twenty-two, and Annie Schwennberger, nineteen, were yesterday licensed by Clerk Hook to marry.

H. K. List yesterday qualified as administrator of the estate of Catherine A. List. Bond \$20,000; A. S. List surety.

The West Virginia Savings and Building Association, recently chartered, filed its charter yesterday at Clerk Hook's office. The capital stock is \$135, with privilege to increase to \$900,000. The incorporators are George Loos, Dr. G. J. Caddle, J. G. Tomlinson, E. C. Schrem, Charles B. Reed, William H. Caldwell, H. H. Harrison, R. S. McConnell and E. H. McClean.

### Street Car Improvements.

Work is progressing rapidly on the new power house on the South Side for the electric street railway company. The boilers are already in position, and it is expected that in thirty days the system will receive power from the new plant.

Mr. Jolly, speaking of the extensive improvements that have been and are being made on Wheeling's street railway system, said that by reason of the new tracks and cars and the single trolley, the round trip is now made between the Forty-eighth street barn and Martin's Ferry in forty minutes; formerly this same run was made in an hour or more.

### In Olden Times

people overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

## YES, IT WAS WARM.

Just Such a Day as the River Men Like Most.

## THE SNOW WILL SOON DISAPPEAR

If the Thermometer Will Only Consent to Keep Up Its Present Gait. The Snow Has Changed to Very Slushy Slush, Much to the Delight of River Men—The Beautiful Streets.

### The Temperature Yesterday.

7 a. m.	25	3 p. m.	43
8 a. m.	28	4 p. m.	43
9 a. m.	31	5 p. m.	43
10 a. m.	32	6 p. m.	41
11 a. m.	34	7 p. m.	40
12 m.	36	8 p. m.	40
1 p. m.	40	9 p. m.	40
2 p. m.	42	10 p. m.	40

As Johnny Crockard said, the weather yesterday "could not have suited river men better." Starting at 25 degrees at 7 a. m., the thermometer registered 36 at noon, 43 at 3 p. m. and 40 at 10 o'clock. The average for the day was 37 degrees, or 5 above freezing point.

From ten o'clock in the morning until away into the night the temperature was at a comfortable point above freezing point. In consequence the snow on the ground and river ice, already made soft by the late warm weather, got a very commendable move on itself and melted very rapidly.

The scene on the main streets of the city from noon on was interesting. The chocolate colored slush made up of about equal quantities of snow and mother earth, soon covered the streets, looking about the same as the first days succeeding the big '84 flood.

The Board of Public Works at last awoke from what its friends feared would be a sleep of the Rip Van Winkle brand and had men out working on the streets. The gutters were cleaned up so as to allow the melted snow to find its way to the sewers. Attempts were made to keep the crossings clean, but the slush would return, making them as bad as before.

Along the river front the owners of river craft were over-joyed at the favorable turn the temperature has taken, and predictions were made by several that the river will break up within a week. The snow on the river ice is fast rotting the ice, which is not as thick as most people imagine. Already the ice is unsafe for pedestrians, many holes having been made.

A sign was set up on the river bank in the afternoon, reading:

DANGER!  
DON'T CROSS THE RIVER HERE.

Despite the warning, numbers continued throughout the afternoon and evening to cross on the ice, which is not safe, and may break up at any moment, though the break up is not expected for three or four days at least. One of the steamers at the public landing has already got up steam ready for any emergency.
